

Dear Friends and Veteran supporters:

Do you know what the founders of Amway, Berkshire Hathaway, Cablevision, Enterprise Rent-A-Car, FedEx, Paul Mitchell and Viacom have in common that led each of them to become among the richest people in the world?

They all shared a valuable experience in the United States Armed Forces.

Did you know that 163 of the Fortune 500 companies are led by former United States Marines - more than those with degrees from Harvard and Stanford combined? It's true.

The point is that America's veterans are some of the smartest, hardest working and most successful members of our community, that they have created billions of dollars in wealth for their investors and created millions of jobs to fuel our economy.

In response to demand from our friends and support from the greater veteran and investment community, we are launching an investment fund which will specifically target businesses that are started, owned and managed by veterans of the United States Armed Forces. These businesses may be franchises, service businesses, technology-based, manufacturing or retail. They will all share the same ties to the armed services that have been a proven leading indicator of future success in business.

Please join us on September 18th at 3:00 PM at the Talbot County Free Public Library to learn about the Veterans Opportunity Fund. The library is located at 100 W. Dover St, Easton, MD 21601. To hear about this exciting venture, click the link below to register.
