

SavePatientAccess.com

Protect your access to healthcare in less than a minute.

Everyone 13 years and older, should visit www.SavePatientAccess.com and ask President Obama to replace Medicare's bidding program in Home Medical Equipment and Supplies with a Market-Based Pricing Program.

Medicare's designed bidding program will begin July 1st and has awarded contracts to out-of-area & out-of-state providers, many without any intention or direct ability to serve patients. That's why in 100 areas, Part B rates will be cut by an average 45% on Respiratory & Mobility products. Nationally, all diabetic testing supplies will be cut by an average of 72%. When something is too good to be true, it usually is!

244 of the top competitive bidding experts, including 5 Nobel Laureates, called the program "fatally flawed". A failed program will limit area providers, limit product choice, and increase government spending with delayed hospital discharges, re-admissions and rationed service calls on existing prescribed equipment.

By visiting www.SavePatientAccess.com you can ask President Obama to replace the current bidding program with the Market Pricing Program. Unlike the current bidding program, the Market Pricing Program will protect local established, accredited and bonded providers by requiring collateral to participate, binding bids, and transparency from CMS. Medicare beneficiaries, hospitals and physicians will still have reliable community providers to choose from and the government will receive the best possible savings.

Go to www.SavePatientAccess.com

1) Below the text, on the right side, click: 

2) Enter your name, email address, and the 2 randomly generated words for verification and click: 

3) You will immediately receive an email from Whitehouse.gov titled "**Almost Done! Verify your Petitions.WhiteHouse.gov account**". Open the email, [click the blue link](#) and you will be redirected back to our petition page.

4) Then simply click: 

You can then take it a step further by clicking the boxes to share the petition on your Facebook and Twitter accounts.
