

Ernie Dittmann currently serves as the Sales and Marketing Manager for ServiceMaster of Tacoma. With commercial accounts being one focus of his responsibilities, he works with clients that range from the residential and small business structure owner to large size corporations and municipalities helping them with emergency mitigation and restoration for damage resulting from smoke, water, mold, trauma, sewer/septic, and gross filth cleanup. Ernie holds a license as a certified Real Estate Instructor in the state of Washington and teaches continuing education on emergency mitigation topics to insurance professionals, maintenance personnel, and property managers. He works with many organizations and associations as a resource for emergency preparedness and business continuity planning. He is the acting representative for a number of professional associations, including BOMA, WSSHE, WHCA, RHA, WLA, CAI, and WAMOA. Ernie comes from a background of commercial operations management, real estate, and sales.
