

Hard to Control Weeds

Are you battling smutgrass? What new herbicides are available for pasture weed control? Do you really have Johnsongrass? How do you control bracken fern? Can I really calibrate a hand-held sprayer? What does “spray to wet” mean when spot-spraying?

These are all questions we ask. Every year we are challenged with new questions, problems, and sometimes, new weeds. It is our goal to help you find an economical approach to weed control in your pastures.

Who Should Attend?

- Ranchers
- Herbicide Applicators
- Extension Educators
- Anyone who wants to learn more about weed control in pastures

Program

8:30 **Arrive at Ona (See Map)**

9:00 **Opening Welcome & Address**
