

NO TRICKS, ALL TREATS *A line-up of GF candy*

One of the easiest ways to have a happy gluten-free Halloween is to trade your child's gluten-containing treats for gluten-free candy. Of course Halloween isn't the only time kids eat candy. And kids aren't the only ones who love M&M's or Swedish Fish. This list has no age limit. But ingredients can change so no list is a permanent guide to gluten-free choices.

While this list includes a lot of candy, it is not comprehensive and other brands and types of candy might also be gluten free. The best source of information about the gluten-free status of a candy is often the ingredient list. Always read labels, as many candy companies say the most up-to-date information is found on product labels.

Cadbury Adams (a Kraft brand)

Kraft has a policy of always labeling any source of gluten in its products.

Sour Patch Kids and Extreme
Sour Patch Xploderz
