Our state of the art manufacturing process utilizes lightweight lamination in floor and walls. The result: we give the half-ton truck customer a lot more coach at the same "lite" weight of our competitors. Everything you expect with a high-end fifth wheel is still there.

## All you need is a Half-Ton Truck...

A big change to the **Chaparral Lite** is the new aerodynamic fiberglass front cap and hitch placement. Coachmen TurnTec Engineering combines an aggressive frame and cap design to achieve the industry's best turning radius, so you can handle sharp campground turns and other tight spots - all with a half-ton truck!

**Quality lamination and insulation** — Our quality lamination process extends from the floor to the sidewalls. Also, the exterior underbelly is insulated so it is kept from extreme temperatures and seals out dirt and pests. Extra shine — put aluminum wheels with the Chaparral Lite's fresh new colors and you've got a fifth wheel that says "You're something special!"

Forest River, Inc. encourages our customers to purchase their Forest River products from a local dealership whenever possible for the following reasons:

- 1) Forest River, Inc. dealers are independently owned and operated businesses so priority service and scheduling is at their discretion and is often provided to customers that purchased their unit at that dealership.
- 2) Purchasing locally allows customers to establish meaningful relationships with a dealer, enhancing the RV experience through assistance with product questions, user tips or RV regulations for your state or country, and much more!
- 3) Canadian customers must meet requirements to bring an RV purchased out of the country to their home. These requirements may involve additional inspections and certifications, taxes and fees. Your local Canadian Dealer is a professional at meeting these requirements.
