

## Shame on MO Ranch and its Board of Trustees

In October the Oak Initiative once again made our community aware that Mo Ranch of Hunt, Texas was hosting the Muslim Youth of North America (MYNA).

You might ask why the Oak care's about Muslim youth coming to Mo Ranch? MYNA is the youth arm of the Islamic Society of North America (ISNA), the premier front group for the Muslim Brotherhood in North America.

These groups have been identified as potential supporters of terrorism. This relationship was identified in evidence gathered in the Holy Land Foundation (HLF) terrorist funding trial held in Dallas in 2008. The scope of this investigation was so extensive, the government created a list of unindicted co-conspirators, identifying individuals and groups that warranted future legal prosecution. ISNA is on that list. Although the Justice Department was prepared to move forward, when Eric Holder, was appointed US Attorney General, he KO'd any effort to further this pursuit.

ISNA and others have gone to court to have their names removed from this list. In his ruling, Federal Judge Jorge Solis denied their request. He stated there was overwhelming evidence submitted by the government's federal prosecutors to justify ISNA remaining on the Holy Land Foundation unindicted co-conspirator list.

Additionally, the Muslim Brotherhood's "Explanatory Memorandum", the Brotherhood's plan for its North American operations, was a key piece of evidence in the HLF trial. Both ISNA and MYNA (our friendly youth group coming to Mo Ranch) were identified "friends and associates" of the Muslim Brotherhood. This is the same Muslim Brotherhood that played a key role in the takeover of Egypt and Libya in the "Arab Spring". Are you aware of the Christians being murdered in the streets of Egypt and their churches being burned? How's that "democracy" working out?

My question is this. In November, President Obama signed a bill that would continue funding to several government agencies through December 16<sup>th</sup>. Tucked in that bill under Division B Title II, was a provision that cut off all formal Government ties to Unindicted Co-Conspirators of Terrorism. I seriously doubt the President read the bill, but nonetheless somebody had the presence of mind to include that provision in the bill.

That being said, why is Mo Ranch so eager to open its doors to a group that has had formal ties to our government severed due to its terrorist connections? If you're having a hard time wrapping your mind around this one, ask yourself this question. How would you feel if one of our community businesses were to host the Nazi Party? Let me submit to you, Islam has the same objectives in our country as the Nazi's had in Germany. Somehow we think we can't touch Islam because it has a "god" attached to it. We really need to wake up before we find ourselves in the same place the German people did in the 30's.
