Super Slim Weight Loss is our newest, most effective appetite suppressant that we have developed in years. If you remember our “**Super Weight Loss**”, you will Love Super Slim.

NOTE: If you are sensitive to caffeine, you should consult your Healthy Performance counselor before beginning Super Slim Weight Loss.

If you are currently on any type of statin drug, you should consult with you health care provider before starting Super Slim Weight Loss.

Super Slim Weight Loss...

- Is the most potent appetite suppressant we've formulated in years.
- Breaks down stored fat in the body and uses it as energy. This is called “thermogenesis”.
- Stops hunger; physically, emotionally and mentally.
- Makes you feel “good” by releasing the neurotransmitter, Dopamine, in the brain.
- Helps to dissolve cellulite.
- Helps to lower LDL (bad) cholesterol levels.
- Helps to reduce symptoms of Parkinson's Disease.
- Builds muscle mass. Lean muscle burns 6 (six) times the amount of calories as fat.

One of the key ingredients in Super Slim Weight Loss is green tea leaf extract. Numerous studies have been conducted showing that green tea leaf extract containing polyphenols and caffeine has been shown to induce thermogenesis, (the process of converting stored fat into energy). It also stimulates fat oxidation, boosting the metabolic rate 4% without increasing the heart rate.

Combine that with Bitter Orange, Velvet Bean, Sweet Scented Geranium, Sacred Lotus and Nutmeg and you have the strongest, most effective appetite suppressant on the market today.

If you are a person who struggles day to day with cravings, Super Slim Weight Loss is the product for you. It will not only curb your appetite physically, emotionally and mentally, it also makes you feel good by releasing the neurotransmitter Dopamine in the brain.

One satisfied client proclaimed, “It is so easy to focus on other things when your mind is not occupied with food. Super Slim does just that. It takes my mind off food. Thank you Healthy Performance!”
