

The Urban Coalition of Tampa Bay is a grassroots Non-Profit Organization whose mission is to nurture and create a sustainable local community in Tampa Bay, Florida.

We work to create and take opportunities that arise to achieve this by connecting those local producers either from the Farm, the Craft Table and/or the Kitchen to each other and the community we live in.

We promote sustainability to our local population.

We promote and connect the community to workshops and courses in skills and training they need to help improve their social, environmental and economic sustainability.

We promote local food and creativity.

We work directly with the local open-air fresh markets and connect local vendors and the general public to local food and products.

Here is a list of goals we are working to accomplish!

- ✓ Create a network of people in our rural community who is interested in creating and learning a more sustainable way of living in Tampa Bay.
- ✓ Connect the community to all that is Organic, Green and Good for Tampa Bay! *Provide local resources
- ✓ Develop workshops and educational classes for green practices, food preservation, soap making, farming, water conservation, and crafting.
- ✓ Obtain funding and equipment for an Urban Kitchen, a kitchen incubator and community café that will also offer local vendor retail space.
