

TESTIMONIES

"After my dad took the PIQE program, we generally worked better together on communication, setting goals, and other academic related materials. We took the time to visit UC Merced and took a tour as a family and we also figured out that tutoring for SAT/ACT was a good idea to help promote a better understanding for me in my own education. This also includes helping me through college applications and financial aid. I would think that the process of the things previously listed would have taken a much longer time if my dad did not gain some knowledge from attending PIQE."

Oi-Man Chiu, Student, Jefferson MS, San Gabriel Valley, Parent: Jonathan Chiu

"My mother's participation in PIQE has helped me make a plan, set goals, helped get me organized, encouraged good study habits and redirected me from mindless activities to positive productive ones. I had it a bit easier and I knew what to expect as I watched my mother and older brother work together for his successful entry into college, this paved the way for me."

Jason Heutmaker-12th grade Student, Enochs HS, Modesto CA, Parent: Linda Hutchinson

"I emigrated from China to give my child a better future. Even though my knowledge of English is at preschool level, I still have to help my children with their homework. It is very difficult for me. I would like to thank our sponsors and John Muir Middle School. They have also helped me to teach my children to face their hardships. I have taught my children to prepare themselves for a better future. This is so important because it has helped me create a better relationship with my children. So let's all work together to help our children go to college!"

Heng Moon, Parent Graduate, John Muir MS

"I believe we all have the potential to be great parents but the willingness to use this potential for the good of the education and growth of our kids is what PIQE program has developed in us; to help and serve as support to our children's education."

Jorge Oliverospastor, Parent Graduate, Mc Auliffe ES

"In the nine weeks of the PIQE program, we learned how to manage the academic achievements of our children in the classroom; how to improve the relationship between parent and child; how to motivate our children to study and to go to college. PIQE has given us the necessary tools to keep our children motivated. Everything we do in life is for our children, so that they may have a better future."

Judy Flores, Parent Graduate, Claremont HS
