Drug Awareness

Community Forums

Mark C. Curran, Jr. Sheriff

Do you want to educate your child on the negative effects of drugs? Do you know what signs to look for in your children to determine if they are experimenting with drugs? Do you know what resources are available for Lake County residents addicted to drugs?

Join the Lake County Sheriff's Office in September as we present "From our Family to Yours." We will educate our community on warning signs, how to help your loved one battle addiction and resources available as we fight the impact on our community.
