Why the tiger logo?

The tiger is an apex predator (top of the chain and not preyed upon) that is very powerful and aggressive. The tiger strategically positions himself with apparent neutrality and then devours its opponent. So defines the dominant HUNTER LAW FIRM.

HUNTER LAW FIRM
Thomas L. Hunter P.C.

*Providing you with the most
professional, economical, and
efficient legal service available
since 1986*

Hunter Law Firm/Thomas L. Hunter, P.C.

We are a team of highly qualified professionals whose goal is to provide you with the most professional, economical, and efficient legal service available. No matter the situation, our lawyers take action for our clients and work tirelessly for their success.

Criminal and Traffic Law

Poor decisions or simply being in the wrong place at the wrong time can result in criminal charges and possible incarceration.

We handle all types of criminal cases, including minor infractions and misdemeanors and the most serious felony indictments, such as drug possession, narcotics sales, grand larceny, white-collar fraud, embezzlement, murder, sex offenses, and restoration of rights and expungements. Our traffic-related representation ranges from minor infractions, such as speeding or improper equipment, to more serious charges such as reckless driving, DUI, driving as a habitual offender, driving on a suspended license, and restoration of driving privileges.

Wills & Trusts

Advanced Advance planning can save you and your loved ones a great deal of anxiety, time, and money when you can no longer handle your own affairs. We can assist you in drafting Wills, as well as Powers of Attorney and Advance Medical Directives to ensure that your wishes are carried out. We can also draft trusts including revocable living trusts to keep the process of settling your estate as efficient as possible, and to protect your beneficiaries from creditors and other future threats to their inheritance. Planning now can save millions in the future.

Family Law

When faced with legal disputes that arise between family members or domestic partners, a good lawyer can provide stability in a trying time. We represent clients on a wide range of family law matters in a compassionate manner, including divorce, custody and visitation, support, and adoptions.

A divorce is often the most traumatic event in a person's life, especially when children are involved. It is important to hire an attorney who will always have your best interests and the best interests of your children in mind.

Our divorce attorneys handle both fault and no-fault divorces in Virginia, whether they are contested through court proceedings or settled through out-of-court negotiations. We can also help with other family law matters such as paternity suits, prenuptial, postnuptial and separation agreements, protective orders, and name changes.

Real Estate

Our CRESPA-certified, bonded, and insured attorneys provide representation for all aspects of real estate transactions, including closings, contracts, leases, options, document preparation and review for compliance with state and federal laws, title correction proceedings, and mortgage foreclosures. We also address landlord/tenant matters, regarding both commercial and residential transactions.

Business Law

We represent business clients regarding a wide variety of business matters insuring ongoing compliance with the law, from choosing and forming the proper entity to assisting in the day-to-day issues as they arise. Our goal is to provide practical, efficient advice and services to help insure that your business and personal assets are protected, and to assist them in all aspects of complex corporate and transactional matters.

General Civil Litigation

The firm's general litigation department provides representation for a broad range of civil matters, including commercial and real estate litigation, landlord/tenant, creditors' suits, and contract litigation. We provide our clients with prompt reporting of case activity, realistic litigation budget plans, and cost-effective control of discovery and trial expenses.

Personal Injury

Every year millions of people are injured in automobile and other types of accidents, many with devastating consequences. If you have been injured in an accident, you may be entitled to a variety of benefits including payment of medical bills, lost wages, and compensation for your pain, suffering, and inconvenience.

Worker's Compensation

For injuries that occur on the job, we can assist you in obtaining the benefits you deserve. Among other things, we help you obtain whatever the law allows for your lost wages, payment of medical bills, and additional compensation for qualified permanent injuries.
