

CLOUD OPTIMIZE YOUR IT WITH MICROSOFT.

IntraSystems is committed to providing the most specialized technology, resources, and sales to support our clients' Microsoft infrastructure. IntraSystems extensive experience in working with enterprise customers has allowed our engineers to implement, fully utilize, and maximize the capabilities within Microsoft infrastructure so that your IT environment can benefit from improved security, enhanced performance, manageable user accounts and groups, and increased operational efficiencies. Using our five-step service methodology, IntraSystems will assess your current infrastructure and will customize a solution to meet your goals.

OFFICE 365

Office 365 is a cloud subscription that provides virtually anywhere access to your familiar Office applications plus business-grade email, calendar, and video conferencing across your devices – from PCs to smartphones to tablets. Office 365 can bring you great business value and enhanced productivity.... Always up-to-date!

BENEFITS:

- **Devices:** Office 365 works great across all your devices. With its modernized, clean, and fluid user interface, it works great with touch, mouse and keyboard, or pen.
- **Cloud:** When away from your computer, you can stream a full-featured version of Office 365 on any internet-connected PC with Office on Demand. Your documents are saved by default to the cloud.
- **Social:** Stay connected to all of your contacts. You can quickly schedule a meeting, send an email, start an IM or voice and video chat.
- **Simplified IT:** Office 365 has solutions optimized for size and IT needs. Office 365 will simplify management across your on-premises and cloud environments.

WINDOWS AZURE

Windows Azure is an open and flexible platform that enables you to quickly build, deploy, and manage applications across a global network of Microsoft managed datacenters. You can build applications using any language, tool, or framework. Moreover, you can integrate your public cloud applications with your existing IT environment.

BENEFITS:

- **Always Up. Always On.** Windows Azure delivers a 99.95% monthly SLA and enables you to build a run highly available applications without focusing on the infrastructure.
- **Open.** Windows Azure enables you to use any language, framework, or tool to build applications. Features and services are exposed using open REST protocols.
- **Unlimited Servers. Unlimited Storage.** Windows Azure enables you to easily scale your applications to any size. It is a fully automated self-service platform that allows you to provision resources within minutes.
- **Powerful capabilities.** Windows Azure delivers a flexible cloud platform that can satisfy any application need.

SYSTEM CENTER 2012

Microsoft System Center 2012 can help you manage your IT environment across data centers, private and public clouds, client computers, and devices. System Center 2012 is a comprehensive management platform that enables you to more easily and efficiently manage your IT environments, including your server infrastructure and client devices.

BENEFITS:

- **Cost Effective and Flexible Platform.** System Center 2012 is the most cost effective and flexible platform for managing your traditional datacenters, private and public clouds, and client computers and devices.
- **Unified Management Platform.** System Center 2012 is the only unified management platform where you can manage multiple hypervisors, physical resources, and applications in a single offerings, versus multiple fragmented point solutions delivered by competitors.

ABOUT INTRASYSTEMS

IntraSystems was founded on the premise that a company should focus on their core competencies - not systems and networking infrastructure issues. By assisting in the design, installation, security, and maintenance of networked technologies, IntraSystems enables corporations to focus on business growth and utilize new technologies to enhance corporate productivity. We follow through on all aspects of IT planning, development and maintenance for server-based computing, security and network integration, network diagnostics, virtual private networks, disaster recovery and outsourced technical support.

Our mission is to provide secure application delivery, virtualization services and secure network infrastructure solutions centered on the principles of excellence, service, and quality. IntraSystems delivers customer satisfaction through technical competence, prominent partnerships, and professional integrity of all employees. Because our specialized core knowledge and experience is difficult to duplicate, we can offer customers a trusted relationship with the highest level of personalized service in the industry. Whether a company needs customized IT solutions, managed service or training, the IntraSystems team combines in-house expertise and the highest level of business partnerships to allow customers to get on with their core business.

We know that the foundation of your network depends on your infrastructure's organization. Whether you count on one IT department or you're structured with different departments that manage each element of your network, IntraSystems can help prioritize what's most important to your success. IntraSystems draws on key knowledge and extensive experience in assessing, designing and deploying solutions specific to your organization. Moreover, we review your business priorities and your environment - seeking the right combination of technical skills and technology to suit your unique situation. The IntraSystems team understands the advantages of being flexible and proactive. There's no single recommendation or favorite product that is a solution. We craft solutions that fit your needs alone, while keeping you informed of the latest developments affecting your business.

Recommending, customizing, and implementing IT configurations form the backbone of our key strengths. Over the years, these services and our long-standing reputation of technological and business integrity have merited an impressive list of satisfied customers. Naturally, we take our responsibility very seriously. It's an approach that works well in everyday situations — and it's precisely what drives our success.
