### **Wonder – R.J. Palacio**

August Pullman was born with a facial deformity that, up until now, has prevented him from going to a mainstream school. Starting 5th grade at Beecher Prep, he wants nothing more than to be treated as an ordinary kid—but his new classmates can't get past Auggie's extraordinary face. **WONDER**, now a *New York Times* bestseller and included on the Texas Bluebonnet Award master list, begins from Auggie's point of view, but soon switches to include his classmates, his sister, her boyfriend, and others. These perspectives converge in a portrait of one community's struggle with empathy, compassion, and acceptance.

### **Autobiography of a Face – Lucy Grealy**

At age nine, Lucy Grealy was diagnosed with a potentially terminal cancer. When she returned to school with a third of her jaw removed, she faced the cruel taunts of classmates. In this strikingly candid memoir, Grealy tells her story of great suffering and remarkable strength without sentimentality and with considerable wit. Vividly portraying the pain of peer rejection and the guilty pleasures of wanting to be special, Grealy captures with unique insight what it is like as a child and young adult to be torn between two warring impulses: to feel that more than anything else we want to be loved for who we are, while wishing desperately and secretly to be perfect.

### **Facing Up To It – Dawn Shaw**

When Dawn has a fast-growing tumor removed shortly after birth, it not only reshapes the left half of her face, leaving it deconstructed and paralyzed; it reshapes her entire life. Her journey of self-discovery and acceptance involves the physical, the emotional and the spiritual. Reconstructive procedures during her childhood are necessary to improve jaw alignment and function, and each surgery presents its own set of experiences, challenges and complications. Yet each also leaves its own scars. She is teased, mocked and bullied, and friendships don't come easily, but she has the love, support and protection of her parents, two siblings and a few close friends.

Through intense examination of herself and human nature, Dawn learns to embrace her uniqueness and manages to turn a disability into an asset. And for better or

worse, she knows how to make an impression. Visit [www.facinguptoit.com](http://www.facinguptoit.com) for more info or to order.
